11363	Community Development Fund, Recovery Act	Mosaic Apartments - The CDBG-R funds serve as matching dollars for funding from the California Department of Housing and Community Development (HCD) under its Transit-Oriented Development (TOD) solicitation. CDBG-R funds will be used for acquisition. The non-profit affordable housing developer will acquire property for the construction of a 56-unit development in the Pico Union area providing affordable housing to low- and very low-income residents. The term of affordability is 55 years. This project promotes economic activity by creating about 105 construction jobs. Expected to start demolition in December 2009, new construction in February 2010, and completion in August 2011. - 1521 W. Pico Blvd., Los Angeles, CA	1	CE	done	1			No

11491	Community Development Fund, Recovery Act	Lake Worth CRA Tier I Assessment - In February 2010, the Lake Worth Community Redevelopment Agency (CRA) was granted $23.2 million as part of the Neighborhood Stabilization Program II (NSP II) Grant through the American Recovery and Reinvestment Act of 2009 (Recovery Act) to undertake a project to address home foreclosure and residential property abandonment. The boundaries of the funding area will be the Lake Worth CRA area and the total budget for the undertaking is $23.2 million. The following activities will take place in the CRA area: Acquisition, Rehabilitation, Land Banking, Demolition, and New Construction. As required by NEPA, a Tier I environmental assessment of the CRA area was conducted. The assessment was conducted by Cardno TBE (a qualified environmental engineering and consulting firm) based in Tampa Florida. As a result of the assessment, the City of Lake Worth CRA has determined that the project will have no significant impact on the human environment. Therefore, an Environmental Impact Statement under the National Environmental Policy Act of 1969 (NEPA) is not required. This Finding of No Significant Impact is	1	CE	done	1		2/1/2013	Yes

12057	Native American Housing Block Grant, Recovery Act	Oneida Tribe of Indians of Wisconsin Amendment Grant - The 32 home stimulus grant for October 1, 2010 to December 31, 2010 worked on 5 units and are currently finishing on 1 and one crew is just starting a new unit. The units work consist of insulating with foam; windows, doors, box sills, interior basement walls. We foam all the penetrations in the attic to separate the attic from the living areas of the units. Changing bathroom fans and ducting them to the outside, changing range hood fans and ducting them to the outside. We have been starting to add dehumidifiers to the basements of each unit also. Light bulbs are being changed to energy efficient bulbs. Energy efficient shower heads are being installed also. We also change the smoke alarm to a carbon monoxide/smoke alarm combo throughout the house if it has not already been done. With the work listed above we have 19 out of 32 homes completed. In the three months we have 1,531 man hours which totals $27,822.67 in payroll and $8,907.08 in materials and supplies. - 2913 Commissioner Street, Oneida, WI	1	CE	done	1			Yes

12140	Community Development Fund, Recovery Act	Virginia Avenue Alley Infrastructure - The City plans to use its CDBG-R funds in the amount of $156,000 to complete the two public alleys which were part of the original Section 108 Loan project reviewed in 2005 and updated in 07/08. The update noted that the alleywork had not been completed and the only difference was that the alley would be public instead of private as previously planned. The scope includes 1240 linear feet of grading and paving, earthwork, and storm drain installation. A fence will be installed along the perimeter to buffer homes to either side not connected to the alley (not having rear-loading garages). The original review also included park improvements, for which part of the CDBG-R funds may be utilized if the alley costs come in under budget. - 600 Block of Virginia Avenue, East Lansing, Virginia Avenue Alley Infrastructure, MI	1	CE	done	1		6/29/2009	Yes

12458	Native American Housing Block Grant, Recovery Act	Oneida Rental Energy Efficiency Program - 09-CT-55-49100 OCT 1, 2010-December 31, 2010: The beginning of Phase 2 began as winter began in Northeastern Wisconsin. The weather has slowed our normal summer rehabilitation pace, but we still managed to complete 4 units during the quarter, to include: Mold abatement, siding, windows, basement insulation, ventilation, doors, 4 complete bathroom renovations, and numerous energy efficiency measures completed. The OREEP program worked a total of 5265 hours, for a total of $73,865.00. Contracting costs were $90256.00. Material costs were $212,439. Material costs were high this quarter because I purchase 400 LED fixtures to replace inefficient lighting, and a seamless gutter machine. Staff training is progressing well as I personally train 2 staff members to become electricians and teach energy efficiency measures to the remaining 6 staff members. - Various units within the Oneida Reservation boundaries, Oneida, WI	1	CE	done	1			Yes

12896	Community Development Fund, Recovery Act	Lake Worth CRA NSP-2 Grant - The Lake Worth CRA Consortium applied for and received $23,237,500 in grant funding from the U.S. Department of Housing and Urban Redevelopment (HUD) on January 14, 2010. This funding is part of the American Recovery and Reinvestment Act of 2009, and is better known as the Neighborhood Stabilization Program (NSP). Funding will be primarily used to purchase, rehabilitate and demolish foreclosed homes within the City of Lake Worth. Some funding will also be available to provide homebuyer counseling, "green" maintenance, financing and subsidy programs for working class individuals. The Consortium consists of 20 community based organizations and local companies. During the past 12 months, the consortium has conducted an overall environmental review of the entire Target Area which encompasses 518 acres. Additionally, the CRA conducted a public awareness workshop in September to educate residents the actions being conducted. Finally, each parcel (property) purchased with Federal Grant money is given a thorough environmental review (tier II review) and historic preservation overview to ensure	1	CE	done	1			Yes

13646	Green Retrofit Program (Grants) for Multifam Housing - Recov Act	Foothill Plaza 1 - Foothill Plaza I is a 98-unit multi-family and affordable residential property in the North Highlands neighborhood of Sacramento, California. The property is northeast of downtown Sacramento on the south side of Interstate 80 and approximately two miles east of McClellan Air Force base. The property is in an un-incorporated area of Sacramento County with a City of Sacramento address and zip code. This is within an area that has previously attempted to incorporate as Arden-Arcade but this area has also been of interest to the City of Sacramento for annexation. The project was originally constructed in 1972 and underwent significant renovation in 1995/96 as part of an ownership change. In 1972 100 dwelling units were constructed in 11 two-story, wood-framed buildings consisting of three four-plex, five eight-plex, and three sixteen-plex structures. When the current owner acquired the property in 1994/95 a partial renovation was done to correct electrical, mechanical, site, and interior finish deficiencies. During this renovation two 2-bedroom units in Building 9 were converted into a community room and offices. Site improvements included new fencing, handicap	1	CE	done	1		5/11/2010	Yes		
13647	Green Retrofit Program (Grants) for Multifam Housing - Recov Act	Riverview Apartments - Riverview Apartments is a multi-family project located Avon, Colorado. The project was constructed and occupied in 1979. The property contains five, three story residential buildings with a total of 74 two- and three-bedroom residential units, two of which are used as the leasing office and maintenance area. According to the information provided, the total net rentable square footage is 65,832. The unit measurements taken by Marx|Okubo calculated a net interior square footage of 62,096. Site amenities include outdoor seating, a barbeque area and a playground area. - 39169 US Highway 6 and 24, Avon, CO	1	CE	done	1		4/5/2010	Yes

13769	Community Development Fund, Recovery Act	Crisp Avenue Bridge - The Crisp Avenue Bridge was destroyed by flooding. The proposed project involves stream bank restoration of Lindy Creek and the replacement of the structure which carries Crisp Avenue over Lindy Creek in the City of Scranton. The culvert replacement project will also include reconstruction of the approach roadways to the structure. The project site is located in the 200 block of Crisp Avenue between the intersections of Division Street and Frink Street. There are no buildings within the project area. The project will impact approximately 3400 Square Feet of stream area. Pursuant to FEMA FIRM map #420538 0010B, effective 8/15/1980 the project site is located within Zone A1. The stream bank restoration project will widen and deepen the existing channel extending approximately 1,000 feet upstream. The excavated side slopes of the stream will be lined with permanent erosion control matting. Additionally, approximately 60 feet upstream of the culvert the stream channel will be regraded and lined with rock riprap. The total project cost is approx. 280.000.00 dollars Project plans, an Erosion & Sediment Control Plan (11/2009), DEP letter 4/22/2010 granting a	1	EA	done	1		1/12/2011	Yes

13825	Community Development Fund, Recovery Act	Mt. Pleasant Corporate Center - The proposed Mount Pleasant Corporate Center project envisions the development of 23-acre industrial site historically associated with deep and strip mining of anthracite coal. The property offers an exceptional opportunity to transform wasted and non-productive industrial land. It is intended that this new road will be dedicated to the City of Scranton and consequently, will be designed to the City¿s specifications.Storm water will be collected along the roadway via dedicated inlets and subsurface piping. The storm water will be temporarily held on-site in a subsurface detention system and will be released at a controlled rate into the existing and adjacent PennDOT drainage system. It is intended that the storm water collection and detention system will be dedicated to the City of Scranton. Water and Sewer A proposed 8¿ ductile iron pipe (DIP) and associated valves, fire hydrants and appurtenances will be constructed along the roadway for domestic water service. This water system will be connected to the 20¿ water main owned by Pennsylvania American Water Company (PAWC) in West Linden Street. The total domestic water consumption is estimated	1	EA	done	1		7/28/2008	Yes

13980	Public Housing Capital Fund, Recovery Act	Elevators - Project included complete upgrades on 2 elevators in a senior building. Activities included replacing single bottom cylinders in 1 elevator, replacing door equipments on both elevators. Upgrading the starters and motor on one elevator. And remodeling the cars on both elevators. The work included jack hammering, drilling, and deepening the existing elevator hole as needed and required. An Architectural and Engineering (A & E) firm was hired to assist us with this project. Specifications were made. Scope of work was developed. Project was awarded on 2/23/2010. Precon was held on 3/11/2020. Project started on 3/30/2010. The first elevator drilling ran into the problem of hole caving in. Had to issue a change order for the additional works due to the collapsing of the hole ($17,825) Drilling is now complete, piston and jack are in ,slurry backfilling is complete. Doors equipments are also complete on both elevators. Both elevator cars were rehabilitated. There were also a change order for $18,560 for waste removal and swirl work on the stainless steel split between this project site (801 South C Street) and another site (401 South C Street) as part of the same contract	1	CE	done	1		6/18/2009	Yes

13982	Community Development Fund, Recovery Act	Lake Worth CRA NSP-2 Consortium - The Lake Worth CRA Consortium applied for and received $23,237,500 in grant funding from the U.S. Department of Housing and Urban Redevelopment (HUD) on January 14, 2010. This funding is part of the American Recovery and Reinvestment Act of 2009, and is better known as the Neighborhood Stabilization Program (NSP). Funding will be primarily used to purchase, rehabilitate and demolish foreclosed homes within the City of Lake Worth. Some funding will also be available to provide homebuyer counseling, "green" maintenance, financing and subsidy programs for working class individuals. The Consortium consists of 20 community based organizations and local companies. During the past year, the consortium has conducted an overall environmental review of the entire Target Area which encompasses 518 acres. The CRA received environmental clearance by HUD in July 2010. Additionally, the CRA conducted a public awareness workshop in September 2010 to educate residents the actions being conducted. Finally, each parcel (property) purchased with Federal Grant money is given an	1	EA	done	1		7/6/2011	Yes

14105	Native American Housing Block Grant, Recovery Act	Oneida Rental Energy Efficiency Program - January 1, 2011-March 31 2011: The winter months and several snow storms slowed our progress. We were limited to performing interior work activities only, but completed 75% of the work on the next 21 homes this quarter. Ther weather is transitioning to spring/summer so I scheduled the exterior work activities for these homes beginning April 11, 2011, with the completion of these 21 homes by May 27, 2011. I am pleased to report that one trainee has accepted a full time position with higher pay in another department. I will be hiring and training two more trainees in the near future. The OREEP crew worked 4015.75 hours hours this quarter. The total labor cost including OREEP and subcontracts was $145,958.35. The total material/equiment/supply cost for this quarter was $163,198.67. Material cost insudes major purchases of Energy Auditor tools and equipment, 420 squares of metal roofing, lumber, flooring, and other materials needed for this construction season. - Oneida Nation Reservation, Oneida, WI	1	CE	done	1			Yes

14160	Community Development Fund, Recovery Act	TA 7121 Region VIII Tier 1 Enviornmental Review Census Tracts: 96.06 and 95.01. CRHDC will carry out a 2-level program: 1. Acquisition/rehab/resale, and 2. Acquisition, rehab/lease-to own. Detailed description: Acquisition and rehab of existing vacant foreclosed residential properties for sale to LMMI households. Providing financing mechanisms for LLMI households to purchase foreclosed properties. Providing homebuyer and financial education to LMMI households who are going to purchase foreclosed properties The lease-to-own solution is the Lean, Earn, Own (LEO) program (that provides a means by which the family earns a larger down payment through sweat equity). Under either level, CRHDC gets both an ¿as is¿ appraisal and an appraisal that projects the future home value after rehab. This helps CRHDC ensure that the home will be able to be financed by the homeowner after rehab. CRHDC¿s rural efforts	1	EA	done	1		5/13/2011	Yes

14338	Community Development Fund, Recovery Act	Martin Luther King Jr Park Drainage - The purpose of the project is to restore the portion of Rocky Branch that flow through MLK Park to a natural functioning stream channel. The project will restore stable stream banks along approximately 900 lenear feet (LF) of the stream within the park, and provide a riparian buffer for the improvement of stream function. The riparian buffer will establish a maintained vegetated area on either side of the stream throughout the park. This buffer will help maintain the future health and stability of the stream. By implementing a natural channel design on Rocky Branch, flooding in down stream areas will be reduced, water quality will improve with reduced sediment loading and nutrient reduction, and aquatic habitat will be restored. Furthermore, culverted sections of Rocky Branch under the community center parking lot within the park are deteriorating. Stream restoration plans propose to restore approx. 940 lf of culverted stream channel by rerouting the stream around the parking lot, removing the culverts, and restoring the parking lot. The park consists of open grassed area with scattered mature trees in the southwest portion. A	1	EA	done	1		5/28/2007	Yes		
14339	Community Development Fund, Recovery Act	Site Specific Review (Tier 2) - 130 properties completed environmental review and were approved by the RE. 14457	Community Development Fund, Recovery Act	Summit St - The City of Joliet intends to fund a portion of a District 5 Neighborhood Improvement Project (NIP) with its CDBG-R monies. This project will consist of the reconstruction of the roadway, installation of storm sewer, curb and gutter, driveway aprons and some sidewalk. The Summit Street (Division to Bridge) project was cut this year from the City's budget due to financial constraints caused by revenue shortfalls and rising expenditures. This project is located in census tract 8819.00 block 2, of which 81.3% of its residents are comprised of low/mod income households. Approximately twenty-five households reside on Summit Street between Division and Bridge Streets. - 400 block of Summit, Joliet, IL	1	EA	done	1		2/26/2011	Yes

14571	Community Development Fund, Recovery Act	River Avenue Storm Drain Improvements - Activity Description: As a result of several flooding incidents that have impacted residents on Arlington Avenue including damaging homes and vehicles, the City of Long Beach contracted with the Los Angeles County Department of Public Works, Storm Drain Division, to conduct a drainage study of the area. The report prepared in 2007 concluded that the 60 inch storm drain pipe that collects storm water from the Arlington Street area as well as the adjoining Southern California Edison Company property and carries these storm water flows to the Dominguez Channel is undersized, providing less than a 5 year protection level. The proposed project to bring the flood protection in this area to a full 10 year protection level consists of the construction of a parallel storm drain system on River Avenue just north of Arlington Street connected to an underground storage (detention) basin on the SCE property that would temporarily hold two acre feet of storm water during heavy flows and then release them as the storm abates and the downstream pipe is no longer flowing full. The project consists of the following elements: ⁃Construction of 1021 feet of 48 inch reinforced	1	EA	done	1		10/21/2009	Yes

14612	Community Development Fund, Recovery Act	Route 10 East Traffic Safety - Route 10 East is a major thoroughfare on the eastern portion of the City of Hopewell. There is a five (5) way intersection at Route 10 and North Main Street. Several accidents have occurred at this intersection as motorists with a green light at East Cawson are making a left hand turn onto Route 10. After turning motorist encounter a red light at Route 10 and come to an abrupt stop assuming this light as their signal also. The City is requesting to purchase three (3) light extenders to place on the traffic signals at Route 10 and South Main Street. Light extenders would shield the traffic lights (color) on Route 10 from motorist on East Cawson, thereby decreasing the safety hazard at this intersection. - Intersection of North Main and Randolph Road, City of Hopewell, VA	1	CE	done	1			Yes
