CQ414

To the White House Council on Environmental Quality:

I don't approve of your proposals to revamp the National Environmental Policy Act.

In this case, red tape can be a wonderful tool to prevent harm to the environment. Sacred forest land and ocean habitats are something that can not be replaced once they have been destroyed.

NEPA recognizes the importance of preserving and enhancing the environment and forces the proposal of alternative options.

Please allow the National Environmental Policy Act to remain intact as at present.

Sincerely,
Cheryl Deutsch
