CQ420

9/13/02

To: White House Council on Environmental Quality
Task Force
National Environment Policy Act (NEPA)

I am writing to notify you of my disapproval of the recently proposed changes to the NEPA. this bill has been critical in the prevention of many potentially harmful developments and plans, and the changes in question would take away much of the bill's power. I encourage you to leave the NEPA as it is; changing it would ~~make~~ endanger our environment, making it harder for environmentalists to appeal their cases and adding even more barriers in the protection of wildlife, especiall marine life such as dolphins and whales. Why fix something that is not broken? Please leave the NEPA as it is.

Sincerely,
Declan Gould
