Information from the website:

“Northwest Environmental Training Center (NWETC) delivers tailored courses on current policy, standards, technology and regulations for environmental professionals. We provide opportunities for continued education in a wide variety of topics. Custom on-site training is offered by request both regionally and nationally. Discounts are available for Government employees and members of other groups. See course descriptions for details.

Our courses have trained thousands of people in dozens of disciplines, and we continually update our offerings with new, relevant material. To find a course that is right for you, there are several ways you can search:

The Course Catalog page lists all courses in chronological order, so you can easily see what is coming up next.

Several categories of courses are listed below:

- BIO (Biology related courses)
- CHEM (Chemistry related courses)
- CESCL (Certified Erosion and Sediment Control Lead)
- COMP (Computer software based classes- Access, etc.)
- ETOX (Toxicology effects)
- FAC (Meeting Facilitation)
- GIS (ARC GIS, Applications for working with Geographic data)
- OPR (Negotiations, Writing Policies & Procedures)
- POL/CAPOL/WAPOL (NEPA/CEQA/SEPA Training)
- STAT (Statistical Analysis)
- VAQM (Evaluating the Vapor Intrusion Pathway)”
