Subject: Feed-back for an average citizen

Just a short note that will probably be dumped in the waste basket---Way too much 'politics', too much 'lobbying', which again is politics, too much 'lets don't hurt ANYONE' attitude, by the 'elected ones', who continue to 'push' thier agenda and the 'commoners' just don't know anything anyway--an attitude by our 'leaders' that will NEVER bring this country back to the people, where it really belongs...Just a note from 'another WW2 vet that would now, never go out and risk my life, unless I hired a 'lawyer' THERE'S the real problem--Lawyers AND politicians---too bad we have so many---THEY are truly what is needed to be 'cut down' NOT the trees....Respect, V.Villanova email halsteadav@wmconnect.com
