NEPA Task Force Web Site Reports a New Feedback Entry:

Name: Christina Lucchesi

Email Address: krystyna\_\_l@hotmail.com

Comments: The National Environmental Policy Act should remain as it is. Big industry, with both the blessing and help of this administration, is already making a sacrificial lamb of this nation's great public lands. These lands are the domain of the PEOPLE, lest you forget. Every care and effort to safeguard these places MUST be maintained.
