NEPA Task Force Web Site Reports a New Feedback Entry:

Name: Rob Nerenberg

Email Address: robbymackk@msn.com

Comments: It is greatly disappointing to me that our vision of the world is so myopic and so dependent on the almighty dollar. There are people (BILLIONS OF THEM) all over the world lacking clean water and proper sanitation yet we want to move ahead possibly wiping several species off the map juss so some loggers or fishermen can make a few more dollars for themselves while the world around us juss shakes their head at our ignorance. It disgusts me and I hope that the processes that are currently in place remain so thereby protecting the rich diversity of this planet we call home. Money ISN'T everything.
