NEPA Task Force Web Site Reports a New Feedback Entry:

Name: Brian Jones

Email Address: builtwell@montanasky.net

Comments: Please DO NOT lessen any more laws protecting our forrests and wild lands, look around the world carefully and notice what happens to these places without strong protection. Some of us prefer that the rest of the US not end up looking like Texas, smog chocked cities and ruined farm land from inorganic farming practices. Look open mindedly at the illnesses brought on by poor treatment of Dear Mother Earth given to us by God to cherrish!!!!!!
