CQ419

September 13, 2002

TO The White House Council on Environmental Quality Task Force,
National Environmental Policy Act (NEPA)

I don't approve of your proposal to change the National Environmental Policy Act. I feel that it is fine the way it is. To change this Act would not be beneficial to our environment. This new plan would make it more difficult for environmentalists to appeal federal decisions that allow logging. This new Act would benefit economical growth, but in the longrun, it'll cause more harm for the future.

Sincerely,
Sally Cheung
