Subject: CEQ NEPA Taskforce

CQ592

To: Review Team

Enclosed is a NEPA document that our district prepared with the assistance of Judith Lee as part of a demonstration project in the early 1990's. The process was for skill building and team-building as well as production of a NEPA document.

Our district has been well served by the process that we learned with Judith's assistance. We have used it on numerous other projects from very small to an Environmental Impact Statement for a watershed with an inventoried roadless area. We have also used it to complete two watershed analyses on time and within budget.

Please let me know if we can be of any further assistance.

DONNA SHORT
Integrated Resources Management Assistant
